

# Static UI Mockup

February 2017

## **Team Mango Members**

John Drakos

Yixiang Xu

Michael Feuerstein

Yi Fung

Bryce Bodley-Gomes

Ryan Semple

## Navigation Bar

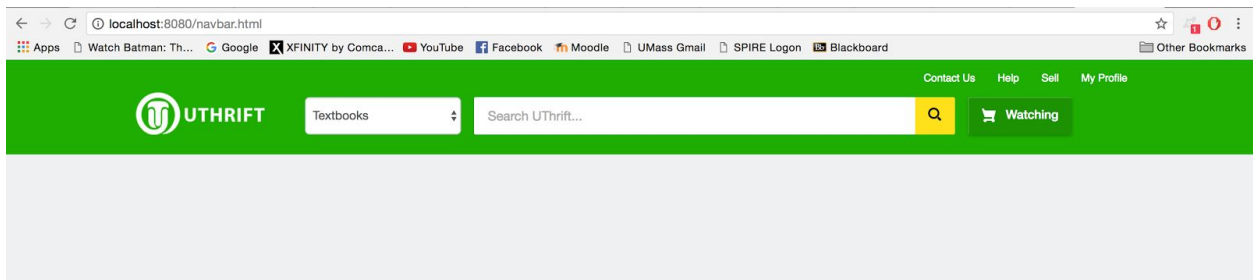

Figure 1.0 Navbar

**navbar.html** will be applied to the top of every web page so that each page will include the following features:

1. **Search:** will transfer to searchpage.html where the search page results will displayed
2. **Uthrift logo:** will transfer the user back to the homepage.
3. Clicking on any of the trending items will take you to the item.html page where you will be able to view the item.
4. **Sell:** will take the user to submission\_form.html where they will be able to upload the item they wish to sell.
5. **My Profile:** will take the user to profile.html where they will be able to modify settings and items related to their account.
6. **Help:** will take the user to a help document explaining how the services work (to be added at a future date).
7. **Contact Us:** will bring up a pop up with data to contact the app owners for issues related to the service.

## Homepage

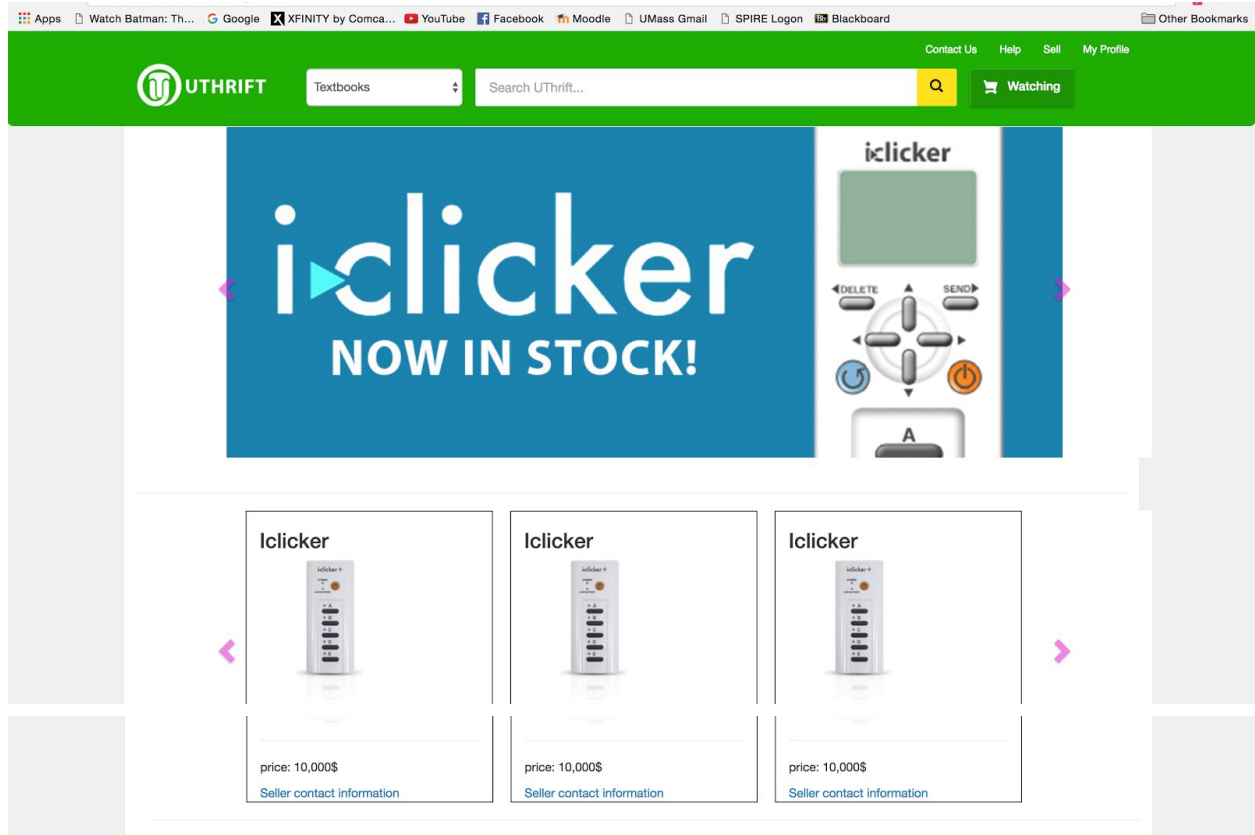

Figure 1.1 and 1.2 Homepage.html (Top and Bottom respectively)

**homepage.html** is the default homepage for our web app. From this page the user will be able to navigate to their account page, search for items, view trending items,

1. **Selling/Sold:** clicking on an item here will bring you to its item page.
2. **Large Image:** clicking on the large image will bring you to a corresponding page. In this example, the user would be brought to the search\_results page to see applicable i>clicker deals.
3. **Item Display:** Clicking on an item will bring you to its item description page.

## Search Page

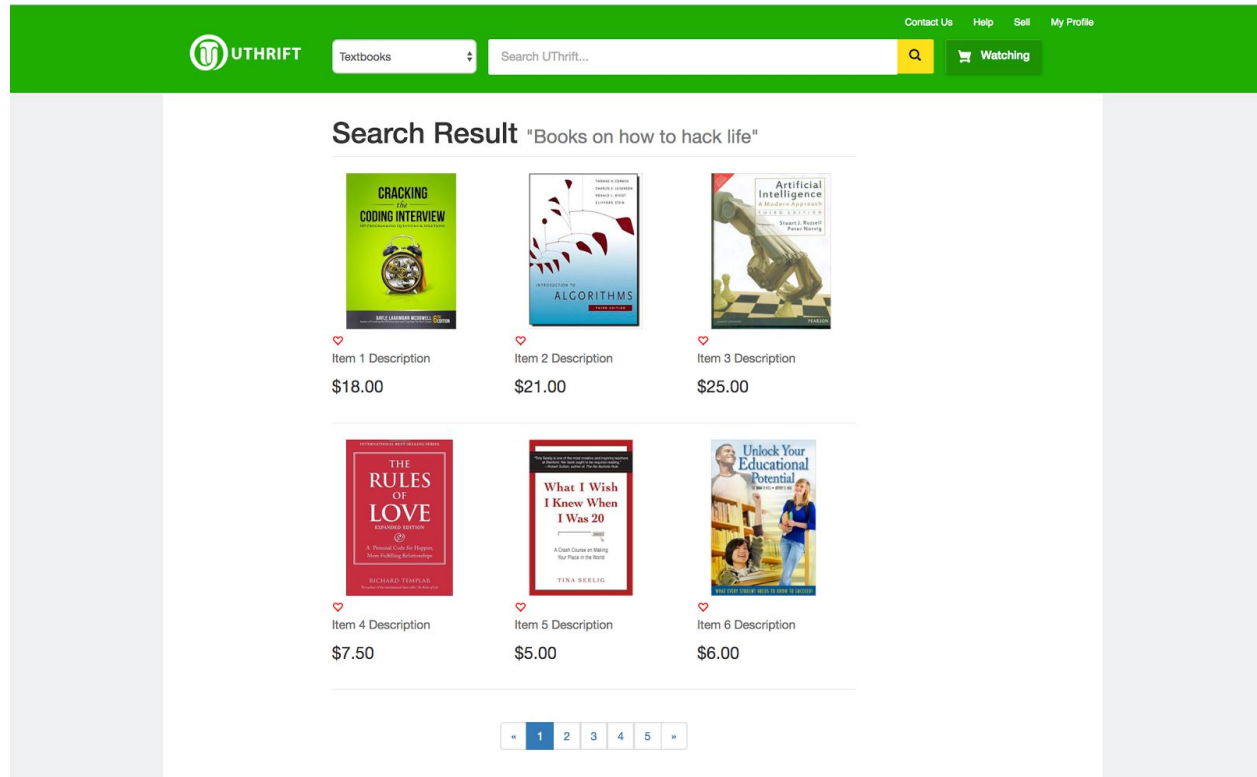

Figure 3. searchpage.html

**searchpage.html** is the page where search results are displayed

1. **Navigation Bar:** All functions are already listed above.
2. **Item:** Clicking on an item will bring you the that item's description page.
3. **Page Numbers:** Clicking between the page numbers allows you to browse more search results.

~ By Yi Fung

## Class Page

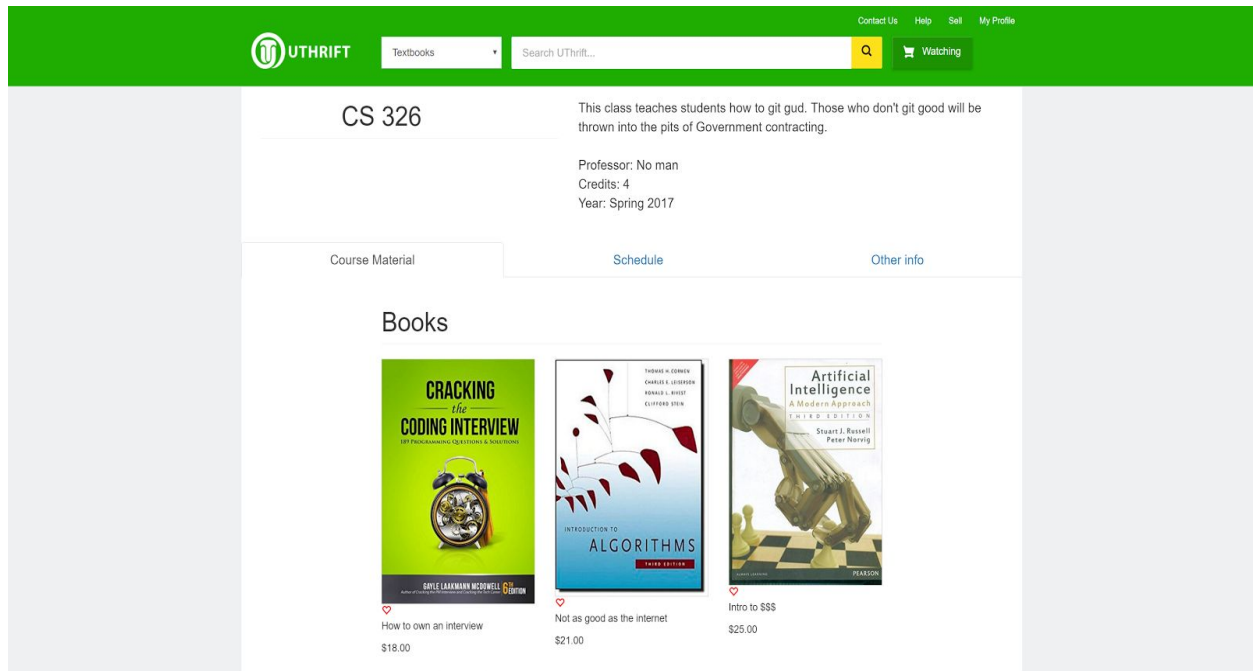

Figure 4. classpage.html

**classpage.html** is the page that lists information about classes and class material

1. **Navigation Bar:** All functions are already listed above.
2. **Item:** Clicking on an item will bring you to its description page.
3. **Class Tab Bar:** Select between viewing course material, class schedule and other information and portals relevant to the class. (Currently we do not have mock data for these tabs, so clicking on them is not yet a different view)

~By Michael Feuerstein

## Item Page

The screenshot shows the Uthrift website's item page for an i>clicker. The top navigation bar is green with the Uthrift logo, a search bar, and links for 'Contact Us', 'Help', 'Sell', and 'My Profile'. Below the navigation bar, the item title 'i>clicker' is displayed. The main content area features a large image of three i>clicker devices on the left. To the right of the image, there is a 'Description' section stating that i>clicker is an award-winning student response solution. Below the description is a 'Details' section listing the condition as 'Like New', usage as 'Used for one year', and that 'Batteries included'. The price is listed as '\$35'. At the bottom of this section are two buttons: 'Add to Watching' and 'Contact Seller'. Below the main content area is a 'Related Products' section showing four smaller images of the same i>clicker device. Below this, there is a 'More by Seller' section displaying three items: an i>clicker, a TI N-Spire calculator, and a textbook titled 'PRINCIPLES OF ECONOMICS'.

**Navigation Bar:** UTHRIFT, Textbooks, Search Uthrift..., Contact Us, Help, Sell, My Profile, Watching.

### i>clicker

**Description**  
i>clicker is an award winning student response solution that allows you to easily transform your classroom into an active learning environment.

**Details**

- Condition: Like New
- Used for one year
- Batteries included

**Price: \$35**

## Submission Page

Figure 6.1 submission\_form.html (Top)

Figure 6.2 submission\_form.html (Bottom)

**submission\_form.html** allows a user to post an item for sale. They must be signed in and then fill out all information on the left side, as well as any applicable information on the right side.

1. **Navigation Bar:** All functions are already listed above.
2. **Choose File:** Allows user to upload a picture from their computer which will be displayed in the top left (currently War and Peace).
3. **Drag and Drop:** Allows user to drag an picture's file onto the webpage for easy uploading. Replaces image in top left.
4. **Condition:** Has 5 choices: new, like new, good enough, visibly used, poor
5. **Post for Sale:** This button will post the item for sale and redirect the user to his/her profile page.
6. *Required Fields:* Picture, Title, Cost, Condition, Condition Description, and at least one category.
7. **Course Subject:** This dropdown menu includes all of the course subjects that are listed on Spire when searching for a class.
8. **Category Select:** Each of the categories is a checkbox so that an item may belong to more than one category.
9. **Size:** This dropdown includes Small, Medium, Large. The user has the option to fill out three different size fields depending on the clothing item.

~ By Ryan Semple

### **Responsibilities**

**Bryce Bodley-Gomes:** Created homepage.html, helped with navbar creation, helped compose Static UI Report.

**John Drakos:** Designed navbar.html and item.html, helped compose Static UI Report, created logo and provided artistic suggestions (color theme, layout, etc) for the documents.

**Yixiang Xu:** Designed profile.html page, helped compose Static UI Report.

**Michael Feuerstein:** Designed Class page, helped compose Static UI Report.

**Yi Fung:** Designed search page, helped compose Static UI Report.

**Ryan Semple:** Designed item for sale submission page, helped compose Static UI Report.
